

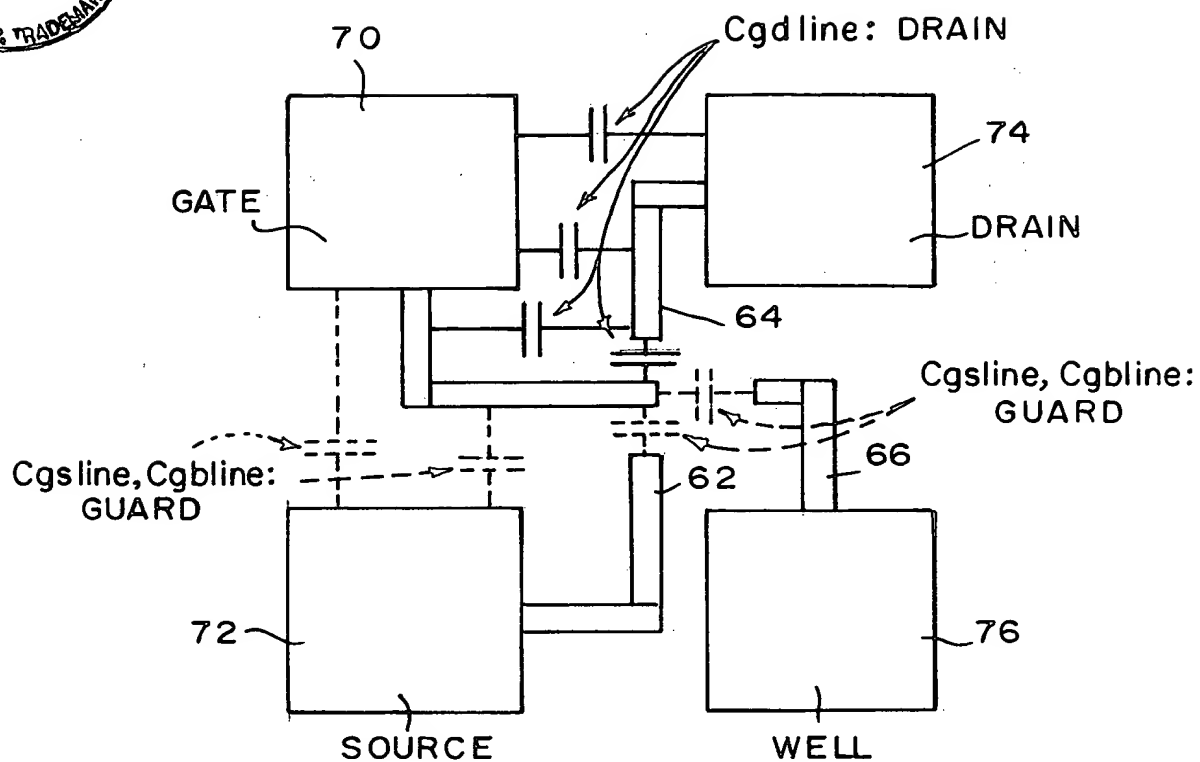

FIG. 2

A cross-sectional diagram of a well. A horizontal line, labeled 'LINE' with a reference number '71', is positioned above the well. A 'PAD' is located on the left side of the line. A 'GATE' is positioned at the right end of the line, with a reference number '50' next to it. A dashed line with an arrow points from the text 'Cgbline; WELL GUARD' to a dashed rectangular area within the well. The well itself is labeled 'WELL' at the bottom right.
